Public Notice

February 12, 2016

This morning at 10 a.m. we were informed by the Kentucky Transportation Cabinet, Department of Highways, that effective immediately the State owned bridge crossing Waterworks Road is being closed to vehicular traffic until further notice and pending repairs. This will cause a complete closure of the roadway in the area of 1542/1605 Waterworks Road. Barricades will be in place. Please plan alternate routes and expect delays as you travel through this area. Emergency responders have been notified. At this time we have not been given a schedule for when repairs will be made. We appreciate the patience and cooperation of residents and those from neighboring communities who travel this area.
